#### **TABLE OF CONTENTS**

WORK PLAN	1
STAFFING PLAN	5
UPDATED SUD FUNDING RECEIVED	5
SUCCESSES + CHALLENGES	5
SUD + RELATED HEALTH ISSUES	6
REQUESTS FOR INFORMATION	7

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number GA1RH33539, Rural Communities Opioid Response Program—Implementation, for \$1,000,000 total award amount and zero percentage financed with nongovernmental sources.

This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by, HRSA, HHS or the U.S. Government.

#### I. WORK PLAN: LINCOLN COUNTY BRIDGES TO RECOVERY PROJECT

Overarching goal: Reduce morbidity and mortality of substance use disorder (SUD), including opioid use disorder (OUD), in Lincoln County.

#### Goal 1. Strengthen and expand SUD/OUD prevention services in Lincoln County.

Objective: Implement all six prevention core activities by August 31, 2022.

GOAL#	ACTIVITY	CORE ACTIVITY #	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
1a	Assign Project Director and Project Coordinator to support the Lincoln County Bridges to Recovery Project.	1	Staff assigned	Network Director	Sept 2019	Completed
1b	Prescription Drug Overdose (PDO) Coordinator facilitates bulk Narcan purchases for Lincoln County Health and Human Services (LCHHS), Communities Helping Addicts Negotiate Change Effectively (C.H.A.N.C.E.), and law enforcement agencies in Lincoln County.	1	Invoices/spreadsheet tracking purchases	PDO Coordinator	Oct 2019– ongoing	In progress
1c	Distribute naloxone and other approved medication used for medication-assisted treatment (MAT) to trained individuals and organizations.	1	Distribution     spreadsheet	PDO Coordinator, C.H.A.N.C.E.	Oct 2019– ongoing	In progress
1d	Regional Harm Reduction Coalition monitors Narcan in the community to ensure timely response to overdose clusters.	1	# of individuals, family members allocated Narcan each month	Regional Harm Reduction Coalition	Ongoing	In progress
1e	Leverage Oregon Health Authority's culturally specific media campaign around SUD/OUD beyond initial rollout period in partnership with the Confederated Tribes of Siletz Indians (CTSI) and LCHHS.	2	# of media messages, articles and printed materials distributed	PDO Coordinator, CTSI Project Coordinator	Sept 2019– Aug 2022	Completed
	Conduct media campaign to promote awareness of the Lincoln County Bridges to Recovery Project and new service availability.	1	# of media messages distributed monthly	Samaritan Health Services (SHS)	Jan 2020- Aug 2022	Pending
1f	Provide one SUD/OUD training class each year at Friday Continuing Medical Education (CME) open to all physicians, pharmacists, providers, behavioral health workers, nurses and social workers in Lincoln County.	3	# of training classes each year  # of clinicians trained each year (sign-in sheets)	SHS	Oct 2019– annually	Pending
1g	Provide an SUD/OUD workshop on prevention, treatment and recovery at the annual PainWise Conference.	3	• # of participants (sign-in sheets)	SHS, PDO Coordinator	Jan 2020– annually	In progress
1h	Conduct trainings on the proper use of naloxone.	3	# of trainings each year     # of attendees	C.H.A.N.C.E., PDO Coordinator	Jan 2020– ongoing	In progress
1i	Conduct clinic visits using Academic Detailing to educate clinicians or Prescription Drug Monitoring Program (PDMP) delegates on the importance of checking the Oregon PDMP site.	4	<ul><li># of clinic visits</li><li># of trained delegates each year</li></ul>	PDO Coordinator, LCHHS, SHS	Ongoing	Deferred
1j	Primary care clinics implement the Screening Brief Intervention and Referral to Treatment (SBIRT), Alcohol Use Disorders Identification Test (AUDIT), and Drug Abuse Screening Test (DAST) screening tools.	4	# of patients screened each year (EPIC EHR)	SHS clinics	Ongoing	Pending

#### Goal 1. Strengthen and expand SUD/OUD prevention services in Lincoln County — continued

GOAL#	ACTIVITY	ACTIVITY#	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
1k	Hire Harm Reduction Outreach Specialist (HROS) to work with Siletz Tribal members in the clinic and conduct street outreach to connect individuals to primary care and screenings.	 	• # of outreach efforts	CTSI	Oct 2019	In progress
11	Hire 1.0 FTE nurse case manager (NCM) and 0.5 FTE registered nurse (RN) to Lincoln County Community Health Clinic (FQHC) staff.	4	Staff hire dates	LCHHS, FQHC	Oct 2019	In progress
1m	Identify and screen individuals at risk of SUD/OUD and connect them to prevention, harm reduction, early intervention services, referral to treatment and other support services.	5	<ul> <li># of individuals screened</li> <li># of individuals referred</li> <li># of individuals accepting services (EPIC EHR and internal tracking)</li> </ul>	SHS, LCHHS, NCM, RN, HROS, <mark>FQHC</mark>	Dec 2019– ongoing	• FQHC in progress • LCHHS pending
1n	Individuals at risk of infectious complications—including HIV, viral hepatitis and endocarditis—will be screened, tracked and referred to treatment.	6	• # of individuals screened • # of individuals referred	SHS, LCHHS, NCM, RN, HROS, FQHC	Dec 2019– ongoing	In progress

#### Goal 2. Strengthen and expand SUD/OUD treatment services in Lincoln County.

Objective: Establish and implement all six treatment core activities by August 31, 2022.

GOAL#	ACTIVITY	CORE ACTIVITY#	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
2a	Prioritize hiring providers who already have DEA waiver, and strongly encourage new hires to obtain DEA waiver.	1 1	# of providers with     DEA waiver	LCHHS, SHS <del>CTSI</del>	Sept 2019– ongoing	In progress
2b	Conduct outreach to the provider at the Lincoln County Jail to facilitate obtaining a DEA waiver.	1	Lincoln County Jail     provider obtains DEA     waiver	Project Coordinator	Jan 2020– ongoing	In progress
2c	Develop MAT program at FQHC through which waivered providers can provide MAT.	1	MAT program     implemented at FQHC	LCHHS, FQHC	Jan 2020	In progress
2d	Provide DEA waiver trainings biannually in Lincoln County.	1	• # of trainings	PDO Coordinator	Oct 2019– ongoing	Pending
2e	Hire Peer Recovery Mentor (PRM) to work with Siletz Tribal members in the clinic and the community.	2	Staff hired	CTSI	Oct 2019	In progress
2f	CTSI to partner with C.H.A.N.C.E. to train PRM and HROS around relapse susceptibility and build peer recovery community.	2	# of trainings     # of individuals trained	CTSI, C.H.A.N.C.E.	Nov 2019	Pending
2g	Engage Siletz Tribal members and Siletz Clinic clients to participate in the Tribes' culturally specific services and activities, and walk alongside them in connecting to those resources and programs to ensure client success.	2	# of clients who participate	CTSI PRM and HROS, C.H.A.N.C.E.	Dec 2019– ongoing	In progress
2h	Incorporate a trauma-informed approach to annual naloxone trainings to reduce stigma around MAT.	2	# of trauma-informed trainings	CTSI, LCHHS	June 2020	In progress
2i	Continue to advertise National Health Service Corps (NHSC) status while recruiting.	3	• # of staff hired using NHSC status	Samaritan North Lincoln Hospital (SNLH), Samaritan Pacific Communities Hospital (SPCH), FQHC, LCHHS, CTSI	Sept 2019– ongoing	In progress

#### Goal 2. Strengthen and expand SUD/OUD treatment services in Lincoln County — continued

GOAL#	ACTIVITY	CORE ACTIVITY#	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
2j	Recruit Peer Support Specialists (PSS) to support treatment of individuals with OUD who are bilingual/bicultural; provide referrals to bridge medical, behavioral health, dental and other social service programs and supports.	4	Staff hire dates	C.H.A.N.C.E., LCHHS	Sept 2019– ongoing	In progress
2k	NCM and RN to reduce barriers to treatment by providing care coordination and connec- tion/referrals to social services and support for individuals with SUD/OUD, including FQHC patients and those connected through emergency department peer support handoff.	4	<ul> <li># of referrals</li> <li># of patients accepting referrals</li> </ul>	LCHHS, FQHC, C.H.A.N.C.E., Reconnections Counseling	Nov 2019– ongoing	In progress
21	PRM and HROS reduce barriers to treatment for Siletz Tribal members with SUD/OUD by providing connections and referrals to homeand community-based services.	4	<ul><li># of referrals</li><li># of patients accepting referrals</li></ul>	CTSI PRM and HROS	Dec 2019– ongoing	In progress
2m	Provide training to the Harm Reduction Coalition and Mental Health / Substance Use Disorder Advisory Committee on proper coding and billing across insurance types.	5	<ul><li># of trainings</li><li># of people trained</li></ul>	SNLH business office staff	Jan 2020	Pending
2n	Continue to work with law enforcement to track naloxone use and ensure adequate naloxone availability.	6	Distribution     spreadsheet	PDO Coordinator	Ongoing	In progress
20	Coordinate naloxone curriculum and training across law enforcement in Lincoln County.	6	• # of trainings • # of people trained	Project Coordina- tor, Lincoln County Sheriff's Office	Jan 2020	In progress
2p	Create and provide a train-the-trainer curriculum for naloxone.	6	• # of people trained as trainers	C.H.A.N.C.E., LCHHS	Mar 2020	In progress

#### Goal 3. Strengthen and expand SUD/OUD recovery services in Lincoln County.

Objective: Establish and implement all six recovery core activities by August 31, 2022.

GOAL#	ACTIVITY	CORE ACTIVITY#	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
3a	Conduct outreach to the Olalla Center for Children and Families Relief Nursery to ensure effective referrals and service utilization.	1	<ul><li># of referrals</li><li># of people accepting referrals</li></ul>	Project Coordinator	Jan 2020	Pending
3b	Hire PSS to promote recovery in Lincoln County.	2	Staff hire date	C.H.A.N.C.E., LCHHS	Mar 2020	In progress
3c	Identify and train new individuals, with a preference for those who are bilingual/bicultural, to serve as PSS to promote recovery.	2	# of trainings     # of people trained	C.H.A.N.C.E., LCHHS	June 2020	In progress
3d	Develop a PSS support group to strengthen the recovery community and recovery workforce.	2	Support group formed     # of participants	C.H.A.N.C.E., LCHHS	Oct 2019	In progress
3e	NCM and RN to develop and provide wrap- around services through LCHHS MAT program.	2	# of patients receiving wraparound services	LCHHS NCM and RN	Nov 2019– ongoing	Pending
3f	PRM and HROS assist individuals, families and caregivers to navigate treatment and re- covery support services, including home- and community-based services for SUD/OUD.	2	# of clients receiving support	CTSI PRM and HROS	Dec 2019– ongoing	Pending

#### Goal 3. Strengthen and expand SUD/OUD recovery services in Lincoln County — continued

GOAL#	ACTIVITY	CORE ACTIVITY#	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
3g	PRM will also provide individual and group skill-building to support independent living activities.	2	• # of activities	CTSI PRM	Dec 2019– ongoing	Pending
3h	Revitalize the Community Efforts Demonstrating the Ability to Rebuild and Restore (CEDARR) coalition: Expand board membership to be fully inclusive of all recovery identities; provide training and social marketing campaign around SUD/OUD to strengthen cultural and community response to need for harm reduction services; redefine CEDARR's mission statement and strategic plan.	2	<ul> <li>Date CEDARR         coalition reestablished</li> <li>Redefined mission         statement and strategic         plan</li> </ul>	CTSI Project Coordinator	Sept 2019	In progress
3i	HROS and PRM join CEDARR coalition as active members.	2	Staff joins CEDARR coalition	CTSI PRM <mark>and</mark> HROS	Mar 2020	Pending
3j	PRM completes training in trauma-informed care and completes certification in Peer Recovery Mentor and Psychological First Aid. Feer Recovery Counselor	2	# of staff who     completed training	CTSI PRM	Mar 2020	Pending
3k	CEDARR coalition to host summit around harm reduction.	2	• # of summit attendees	CTSI PRM	Sept 2020	Pending
31	CEDARR coalition mission statement and objectives reviewed, refined and redefined to include all forms of recovery.	2	CEDARR coalition     mission statement     finalized	CTSI PRM	Jan 2021	Pending
3m	Lincoln County Sheriff's Office will provide Transition and Programming Services (TAPS) for individuals recently released from incarceration. Services include transitional housing and wraparound services for clients participating in SUD/OUD treatment programs.	3	• # of clients enrolled in TAPS	Lincoln County Sheriff's Office	Sept 2019	In progress

#### Goal 4. Strengthen and sustain the activities of the CCCWN Mental Health / Substance Use Disorder Advisory Committee beyond the grant period.

Objective: Provide effective communication about SUD/OUD prevention, treatment and recovery activities to stakeholders throughout the project period.

GOAL#	ACTIVITY	CORE ACTIVITY#	DATA	RESPONSIBILITY	TIMELINE	PROGRESS
4a	Convene monthly meetings of the CCCWN  Mental Health / Substance Use Disorder Advisory Committee to guide activity coordination among organizations and within the committee.	N/A	• # of meetings • # of attendees	Project Coordinator	Monthly	In progress
4b	Provide bimonthly progress updates, lessons learned and successes to the CCCWN Steering Committee and the full consortium.	N/A	• <mark>Bimonthly</mark> progress reports	Project Director, Project Coordinator	Bimonthly	In progress
4c	Provide quarterly progress reports, sustainability plan and final performance/closeout reports to the CCCWN Steering Committee and the full consortium.	N/A	<ul> <li>Quarterly progress reports submitted</li> <li>Sustainability plan complete</li> <li>Final report submitted</li> </ul>	Project Director, Project Coordi- nator, Network Director	Quarterly and end of project	In progress

#### II. STAFFING PLAN

NAME	GRANT ROLE/TITLE	ORGANIZATION	ORGANIZATION ROLE/TITLE	FTE
JoAnn Miller	Network Director	Samaritan Health Services	Community Health Promotion Director	0.5 in-kind
Rich Waller	Project Director	Samaritan North Lincoln Hospital	Community Health Improvement Specialist	0.2 in-kind
Jolynn Meza Wynkoop*	Project Coordinator	Samaritan North Lincoln Hospital	Healthier Communities Coordinator	1.0

<sup>\*</sup>Jolynn Meza Wynkoop was brought on to the team as the project coordinator. Her start date was November 18th, 2019.

#### III. UPDATED SUD FUNDING RECEIVED

No new funding has been received during this quarter.

#### **IV. SUCCESSES + CHALLENGES**

#### **Top Three Challenges**

- 1. Hiring and staffing for roles relating to this grant, including clinicians, nurses, health care workers and Peer Support Specialists. Major challenges include:
  - Drawing applicants to a rural area in competition with organizations in urban areas.
  - Having a large enough pool of applicants.
  - Finding interested candidates who meet all job qualifications.
  - The lack of affordable housing in Lincoln County, which makes it difficult for staff to relocate.
  - Retaining currently employed clinical staff (e.g., staff coming through the NHSC).
- 2. Community members have been resistant to efforts relating to establishing an overnight shelter in Lincoln County. Moving implementation efforts forward without full community support is a major challenge.
- 3. Social stigmas surrounding mental health and people who are in recovery.

#### **Top Three Successes**

- 1. Implementation of MAT support. One of our partner organizations, Reconnections Counseling, currently has five Peer Support Specialists as well as connections with doctors who can prescribe MAT. LCHHS has been partnering well with Reconnections Counseling by referring their patients to them.
- 2. CTSI and LCHHS planned and carried out an all-staff training on naloxone/Narcan administration for the Siletz Clinic. This training was planned during quarter one and executed early in quarter two (December 13, 2019). This training will be included in all future CPR/first aid professional development courses for Siletz Clinic staff.
- 3. Lincoln County Sheriff's Office staff have all been trained in naloxone/Narcan administration.

#### **Anticipated Challenges and/or Targeted Technical Assistance Needs**

CTSI is in the process of hiring a Harm Reduction Outreach Specialist who will work with Siletz Tribal members and conduct street outreach. This person will also be involved in many other activities outlined in the work plan. The challenges anticipated here are having a qualified applicant pool and then moving forward with the hiring process.

Other anticipated challenges also relate to hiring efforts. LCHHS plans to hire a nurse case manager (NCM) and a registered nurse (RN) for the Lincoln County Community Health Clinic (FQHC). The NCM and RN will assist with many of the activities outlined in the work plan. Additionally, SHS and LCHHS are currently seeking providers who have a DEA waiver and encouraging new hires to obtain this waiver. However, LCHHS cannot control the direct hiring of providers, as this is done through human resources. C.H.A.N.C.E. has hired some Peer Support Specialists but will face challenges in finding more applicants who fit the criteria.

Finally, time challenges are expected for CTSI. The Tribal Council is the decision-maker for programs, projects, activities and services that are led by CTSI. Because the Council has a full agenda at each meeting, items that require approval may be delayed; this could in turn delay rollout activities.

#### V. SUD + RELATED HEALTH ISSUES

A group discussion was held on each of the following questions. Responses reflect the experience and perspective of the consortium.

- 1. Please rank in order the top three drug types that currently pose the greatest concern to the health and well-being of your service area.
  - 1) Alcohol.
  - 2) Methamphetamine.
  - 3) Heroin.
- 2. Please rank in order the top three drug types that your service area has the least capacity to treat.
  - 1) Methamphetamine.
  - 2) Fentanyl and Fentanyl analogs (i.e., synthetic opioids).
  - 3) Marijuana.
- 3. Please rank in order the top three problem areas that currently pose the greatest concern to the health and well-being of your service area.
  - 1) Drug-related viral hepatitis (A, B, C).
  - 2) Fatal and nonfatal overdoses (all drugs).
  - 3) Drug-related bacterial infections (e.g., infectious endocarditis).
- 4. Please rank in order the top three problem areas that your service area has the least capacity to address.
  - 1) Drug-related viral hepatitis (A, B, C).
  - 2) Drug-related bacterial infections (e.g., infectious endocarditis).
  - 3) Neonatal abstinence syndrome.

#### **VI. REQUESTS FOR INFORMATION**

#### 1. Number of organizations in your RCORP-Implementation consortium?

There are 24 in the CCCWN, and 11 in the CCCWN Mental Health / Substance Use Disorder Advisory Committee.

#### CCCWN membership list

ORGANIZATION	CITY, STATE	PRIMARY CONTACT	EMAIL
Benton County Health Department	Corvallis, OR	Dawn Emerick	dawn.emerick@co.benton.or.us

<sup>\*</sup>LCCHS and CTSI are both subawardees of the RCORP Implementation Grant.

#### 2. Drug Takeback Activities:

a) Has your consortium used grant funds to organize a drug takeback event this quarter?

No. LCHHS used other funding to organize a takeback event on September 21, 2019.

b) Has your consortium used grant funds to distribute drug collection boxes?

No.

#### 3. Recovery Community Organizations:

a) Does your consortium include any Recovery Community Organizations (RCOs)?

Communities Helping Addicts Negotiate Change Effectively (C.H.A.N.C.E.) is an independent nonprofit governed by representatives of local communities of addiction recovery. C.H.A.N.C.E. plays various roles in the partnerships formed through this implementation project. Through their expansion into Lincoln County, they operate in two locations: Newport and Lincoln City. C.H.A.N.C.E. supports this grant through its Peer Support Specialist program, naloxone/Narcan training and peer recovery group training.

#### 4. Veterans:

a) Does your consortium systematically determine whether or not a person receiving your care has served in the military and is a veteran?

Yes.

b) Does your RCORP-Implementation project have programming designed to specifically address the needs of veterans?

Although no veteran-specific activities are detailed in the work plan, all providers in the consortium accept and will see veterans through their programs. The FQHC, for example, will refer veterans to the VA clinic. To become more aware of services provided to veterans in our community, we will ask a VA clinic representative to attend our next implementation project meeting.

c) What clinical information (e.g., PTSD evidence-based practices) would be most helpful to you in meeting the specific treatment needs of veterans?

(Not applicable.)

d) What information about the Veterans Administration, both locally and nationally, would be most helpful to your consortium/RCORP-Implementation Project for meeting the specific treatment needs of veterans?

A representative from the VA clinic will join our meetings to provide us with information.

#### 5. Tribal Populations:

a) To what extent does your RCORP-Implementation project specifically target tribal populations?

The Confederated Tribes of Siletz Indians is a consortium member as well as one of the direct organizations we serve.

b) Approximately what percentage of your target population is American Indian/Alaskan Native?

According to 2018 U.S. Census Bureau estimates, 4.0% of Lincoln County is American Indian/Alaskan Native.

c) If applicable, describe in 2–3 sentences how your project assists tribal populations in particular with receiving SUD/OUD prevention, treatment and recovery services.

The Confederated Tribes of Siletz Indians provides prevention, treatment and recovery services through the Siletz Clinic. SUD/OUD prevention is promoted through a culturally specific media campaign. In addition, the clinic screens individuals at risk of SUD/OUD and connects them to prevention, harm reduction, early intervention and treatment referral services. The clinic also connects patients to MAT services, employs and trains Peer Support Specialists, and seeks to hire providers with DEA waivers.

#### 6. National Health Service Corps:

a) Are you or any of your consortium members planning to leverage the National Health Service Corps' Rural Community Loan Repayment Program or other loan repayment program(s)?

Lincoln County Health and Human Services and the Confederated Tribes of Siletz Indians are leveraging this program as a recruitment tool.

b) If so, please identify the Loan Repayment Program(s) and consortium members who intend to apply.

(Not applicable.)

7. State Office of Rural Health: If applicable, describe your consortium's engagement/encounters with your State Office of Rural Health during this past quarter.

The Oregon Office of Rural Health (OORH) is a consortium member but was unable to attend the fall meeting held on November 18, 2019. The OORH holds an annual conference in Bend, Oregon. Typically, multiple CCCWN members attend and/or present at this conference; JoAnn Miller and Rich Waller represented the consortium at the 2019 conference.

#### RCORP Implementation QPR #2 - Request for Information

#### 1. Grantee Info

1. Please select your grantee name and grant number

Grantee name: Samaritan North Lincoln Hospital

Grant Number: GA1RH33539

#### 2. SUD and Related Health Issues

- 2. Among the drug types listed, please rank in order the top three drug types that currently pose <u>the greatest</u> <u>concern to the health and well-being</u> of your service area. List in order of drugs of most concern to least concern.
  - 1. Alcohol
  - 2. Methamphetamine
  - 3. Fentanyl and Fentanyl Analogs (i.e., synthetic opioids)

#### Comments

- 3. Among the drug types listed, please rank in order the top three drug types that your service area has <u>the least capacity to treat</u>. List from top to bottom starting with the drug you have the lowest capacity to address.
  - 1. Methamphetamine
  - 2. Fentanyl and Fentanyl Analogs (i.e., synthetic opioids)
  - 3. Marijuana

#### Comments

- 4. Among the problem areas listed, please rank in order the top three problem areas that currently pose <u>the greatest concern to the health and well-being</u> of your service area. List in order of health issue of most concern to least concern.
  - 1. Drug-related Viral Hepatitis (A, B, C)
  - 2. Fatal and Non-Fatal Overdoses (all drugs)
  - 3. Drug-related Bacterial Infections (e.g., infectious endocarditis)

#### **Comments**

- 5. Among the problem areas listed, please rank in order the top three problem areas that your service area has the least capacity to address. List from top to bottom starting with the health issue you have the lowest capacity to address.
  - 1. Drug-related Viral Hepatitis (A, B, C)
  - 2. Drug-related Bacterial Infections (e.g., infectious endocarditis)
  - 3. Neonatal Abstinence Syndrome

#### Comments

#### 3. Successes

6. Please identify your first success this quarter.

Since the development of the MAT program at the Confederated Tribes of the Siletz Indians (CTSI) clinic site and in partnership with Lincoln County Health and Human Services (LCHHS), the Lincoln County Sheriff's office is developing a MAT jail program. The clinician providing services at the jail has begun the process of obtaining his DATA waiver.

#### 7. Please identify your second success this quarter.

The CTSI and LCHHS staff who work with clients have all been trained on the administration of Naloxone/Narcan. The CTSI have included Naloxone/Narcan administration training in their CPR/First Aid trainings.

#### 8. Please identify your third success this quarter.

The CTSI have had great success in revitalizing their advisory board – Community Efforts Demonstrating the Ability to Rebuild and Restore (CEDARR) coalition. The community health program at CTSI have taken lead with this coalition and are focused on recognizing all forms of recovery. Activities of the CEDARR coalition include monthly meetings and trainings.

#### 4. Challenges

#### 9. Please identify your first challenge this quarter.

Hiring and staffing for roles relating to this grant, including clinicians, nurses, health care workers and peer support specialists. Major challenges include:

- Drawing applicants to a rural area in competition with organizations in urban areas.
- Having a large enough pool of applicants.
- Finding interested candidates who meet all job qualifications.
- The lack of affordable housing in Lincoln County, which makes it difficult for staff to relocate.
- Retaining currently employed clinical staff (e.g., staff coming through the NHSC).

#### 10. Please identify your second challenge this quarter.

The community members and a local homeless project have been resistant to establishing an overnight shelter. The temporary cold weather shelter was closed during the quarter and trying to support community members with SUD and homelessness continues to be a challenge.

#### 11. Please identify your third challenge this quarter.

The social stigmas surrounding mental health and people who are in recovery continues to be a challenge.

#### 12. Please identify any anticipated challenges and/or targeted technical assistance needs.

We do not anticipate any additional challenges that require technical assistance.

#### 5. Medication Assisted Treatment Options

#### 13. What MAT medications (drug name and form) are currently being prescribed/distributed by at least one consortium member in your service area? Select all that apply.

Buprenorphine, sublingual tablets (e.g., Subutex)

Buprenorphine, extended-release subcutaneous injection (e.g., Sublocade)

Buprenorphine with Naloxone, sublingual tablets (e.g., Zubsolv)

Naltrexone, extended-release injection (e.g., Vivitrol)

#### 6. Drug Take-Back Activities

#### 14. Has your consortium used grant funds to organize a drug take-back event this quarter?

Nο

#### 15. Has your consortium used grant funds to distribute drug collection boxes?

Νo

#### 9. Consortium Membership and Services

16. Does your consortium include any Recovery Community Organizations (RCOs)? An RCO is defined as an independent, non-profit organization led and governed by representatives of local communities of addiction recovery.

17. Please report the name(s) of the RCO(s) and a brief description of their involvement in the RCORP-Implementation project.

Communities Helping Addicts Negotiate Change Effectively (C.H.A.N.C.E.) is an independent nonprofit governed by representatives of local communities of addiction recovery. C.H.A.N.C.E. plays various roles in the partnerships formed through this implementation project. Through their expansion into Lincoln County, they operate in two locations: Newport and Lincoln City. C.H.A.N.C.E. supports this grant through its Peer Support Specialist program, naloxone/Narcan training and peer recovery group training.

18. Is your consortium currently utilizing telehealth/telemedicine as part of your RCORP-Implementation project?

No

19. Regardless of whether your consortium utilizes telehealth, what technical assistance needs does your consortium have around telehealth/telemedicine?

None at this time.

20. Is your consortium using RCORP-Implementation grant funds to subsidize care for the un- or under-insured?

No

21. Regardless of your response above, briefly describe the policies or protocols your consortium has in place to bill for all services covered by a reimbursement plan and make every reasonable effort to obtain payment, while at the same time not denying any individuals services because of an inability to pay.

Policies and protocols are not currently in place for the consortium

22. If your consortium doesn't currently have policies or protocols in place, what policies/protocols will you be implementing going forward to ensure that RCORP-Implementation grant is a payer of last resort?

The CCCWN MH/SUD committee member agencies all have policies/protocols in place for reimbursement. The CCCWN MH/SUD committee will review member policies/protocols and determine if a universal system for reimbursement will be feasible.

#### 10. Loan Repayment Programs and SORH Engagement

23. Are you or any of your consortium members planning to leverage the National Health Service Corps' Rural Community Loan Repayment Program or other Loan Repayment Program(s)?

Yes

25. Has your consortium had any engagement/encounters with your State Office of Rural Health during this past quarter?

Yes

26. Please describe the engagement/encounters

The interim director of the Oregon Office of Rural Health attended the Rural Partnership Development Meeting in Rockville MD on January 14 – 16, 2020. He met with the Network Director to discuss the CCCWN activities as he was unable to attend the previous meeting as well as confirming the CCCWN will conduct a workshop at the annual Oregon Rural Health Conference in October 2020.

# Lincoln County Bridges to Recovery Project Work Plan

Overarching Goal: Reduce morbidity and mortality of substance use disorder (SUD), including opioid use disorder (OUD), in Lincoln County.

# **Definitions of Acronyms:**

C.H.A.N.C.E.	Communities Helping Addicts Negotiate Change Effectively PDMP	PDMP	Prescription Drug Monitoring Program
CME	Continuing Medical Education	PRM	Peer Recovery Mentor
CTSI	Confederated Tribes of Siletz Indians	PSS	Peer Support Specialist
FQHC	LCHHS's Federally Qualified Health Center	SHS	Samaritan Health Services
HROS	Harm Reduction Outreach Specialist	SNLH	Samaritan North Lincoln Hospital
CHHS	Lincoln County Health and Human Services	SPCH	Samaritan Pacific Communities Hospital
OND	Opioid Use Disorder	SUD	Substance Use Disorder
PDO Coordinator	Prescription Drug Overdose Coordinator

#### RCORP Implementation QPR #3- Request for Information

#### 2. Grantee Info

Please select your grantee name and grant number

#### 3. SUD/Drug Concerns

1. What, if any, changes in drug use have you noticed during the last quarter?

Significant increase

2. What, if any, changes in the demand for SUD services have you seen in the last quarter?

Significant increase

3. Have you seen changes to the top three drugs of concern in your service area during the last quarter?

No

4. Have you seen changes to the top three drugs you have the least capacity to treat?

No

#### 4. SUD-Related Health Concerns

5. Have you seen changes to the top three health concerns in your service area during the last quarter?

No

6. Have you seen changes to the top three health concerns with the least capacity to address?

Νo

#### 5. Successes

7. Please select the top three areas where you feel you've had successes during the past quarter:

Overdose Prevention and Naloxone Distribution Workforce—hiring/recruitment Other - Write In: Harm Reduction

8. Please describe the success(es) you had related to overdose prevention/naloxone distribution

Naloxone distribution continues to be one of our large success areas, even through the current crisis of COVID-19. More naloxone is being distributed through community partners to ensure that people at this time are staying safe and well.

9. Please describe the success(es) you had related to workforce—hiring/recruitment

The Confederated Tribes of Siletz Indians (CTSI) was able to hire a harm reduction outreach specialist (HROS) to assist in completing and carrying out grant deliverables and activities. He is also certified as a peer support mentor and has been assisting in the role of peer-recovery mentor. He has played a large role in continuing outreach to the community and developing relationships with members of our target population.

10. Please describe your other, written-in success(es)

Harm reduction and prevention services have continued to be key for people living with SUDs. One of our community partners, the Confederated Tribes of Siletz Indians (CTSI), have been actively engaging the tribal population both in person and through social media. Through a different funding stream, CTSI was able to prepare and distribute many clean kits for people living with SUD in their population.

#### 6. Challenges

#### 11. Please select the top three areas where you feel you've had challenges during the past quarter:

Stigma

Workforce—hiring/recruitment

Other - Write In: Needle exchange (e.g., dumping of needles)

#### 12. Please describe the challenge(s) you had related to stigma

Stigma surrounding mental health and SUD continues to be a significant challenge

in our rural county. One of our community partners has reported that many people who utilize their homelessness and food-related services are reluctant to address their mental health and substance use disorder needs because of fear of stigma.

#### 13. Please describe the challenge(s) you had related to workforce—hiring/recruitment

Recruitment and hiring for positions related to this grant continue to challenge our community partners. The COVID-19 pandemic has forced many of our partner organizations to pause hiring at this time. The county health department and CTSI will resume hiring as soon as possible.

#### 14. Please describe your other, written-in challenge(s)

Low engagement among community members due to COVID-19 has led to an increase in unsafe needle disposal practices (e.g., dumping of needles).

#### 7. Anticipated Challenges/TA Needs

#### 15. Please select <u>up to three areas</u> where you are anticipating having challenges and/or needing targeted technical assistance in the future:

None at this time

#### 9. Grant Activities

#### 16. Please indicate whether the following activities have taken place in the last quarter in your target rural service area.

	Yes - as a result of full or partial RCORP funding	Yes - but not as a result of RCORP funding	No - Not at this time
Creating consortium subcommittees	X		
DATA Waiver/MAT trainings			Х
Hosting town halls, focus groups (or other community education/outreach)		X	
Naloxone training/distribution	X		
Overdose reversal reporting		X	
Provider usage of Prescription Drug Monitoring Program (PDMP) data			X
Telehealth (including services, trainings, and capacity-building)		X	
Training on prescribing guidelines			X
Mental health first aid			X
Stigma reduction activities		X	

#### 10. Impact of COVID-19 on RCORP Operations

17. Please indicate the extent to which COVID-19 has impacted components of your RCORP Implementation project and consortium.

	Not at all impacted	Slightly	Moderately	Extremely
Ability to implement SUD/OUD prevention services and activities				X
Ability to implement SUD/OUD treatment services and activities				X
Ability to implement SUD/OUD recovery services and activities				X
Ability to hire, recruit, or retain SUD/OUD providers and support staff				Х
Ability to engage consortium members		X		
Ability to provide high quality data for RCORP reporting requirements		X		
Ability to complete RCORP-Implementation work plan activities within the timeframe proposed in your work plan				X
"No Show Rates" for in-person patient services ("No Show" in this context refers to scenarios in which patients are scheduled for services but miss their appointments)			X	
"No Show Rates" for telehealth patient services			Х	
Behavioral health outcomes (suicidality, overdose, new cases of SUD, etc.)				X

- 18. Are there any additional details you'd like to share about how COVID-19 has affected your ability to implement SUD/OUD prevention services?
- 19. Are there any additional details you'd like to share about how COVID-19 has affected your ability to implement SUD/OUD treatment services?
- 20. Are there any additional details you'd like to share on how COVID-19 has affected your ability to implement SUD/OUD recovery services?
- 21. Are there any additional details you'd like share on how COVID-19 has affected your ability to hire, recruit, or retain SUD/OUD counselors and other support staff?
- 22. Are there any additional details you'd like to provide on how COVID-19 has affected your ability to engage consortium members?
- 23. Are there any additional details you'd like to share about how COVID-19 has affected your ability to provide high quality data for RCORP reporting requirements?
- 24. Are there any additional details you'd like to share about how COVID-19 has affected your ability to complete RCORP-Implementation work plan activities within the timeframe proposed in your work plan?
- 25. Are there any additional details you'd like to share about how COVID-19 has affected "no show rates" for inperson patient services?
- 26. Are there any additional details you'd like to share about how COVID-19 has affected "no show rates" for telehealth patient services?
- 27. Are there any additional details you'd like to share about how COVID-19 has affected behavioral health outcomes?

#### 11. Adaptations to COVID-19

#### 28. Please indicate the ways (if any) in which you have had to adapt to COVID-19. Select all that apply

Increased social media presence

Increased telemedicine capacity (e.g. prescribing MAT, treatment intake)

Increased capacity for interactive, two-way telehealth services (e.g., counseling, case management, assessments)

Held remote consortium meetings

Designed and hosted on-line support groups

Re-designed physical space to accommodate social distancing

#### 12. COVID-19 Adaptations Continued

29. If you have a particular adaptation that you'd like to tell us more about, please select the adaptation from the drop box:

#### 17. Loan Repayment Programs and SORH Engagement

30. Are you or any of your consortium members planning to leverage the National Health Service Corps' Rural Community Loan Repayment Program or other Loan Repayment Program(s)?

Yes

31. Which loan repayment program are you planning to leverage? Please check all that apply:

Rural Community Loan Repayment Program State Loan Repayment Program

32. Has your consortium had any engagement/encounters with your State Office of Rural Health during this past quarter?

Yes

#### 33. Please describe the engagement/encounters

Contact with the State Office of Rural Health occurred this quarter to discuss the Coast to Cascades Community Wellness Network's (CCCWN) involvement at the annual Oregon Rural Health Conference planned for October 2020. Conversation also included our intent to apply for a planning grant.

# Lincoln County Bridges to Recovery Project Work Plan

Overarching Goal: Reduce morbidity and mortality of substance use disorder (SUD), including opioid use disorder (OUD), in Lincoln County.

# **RCORP QPR #4 - Request for Information**

# **Grantee Info**

1. Grantee Name (Prepopulated, no need to edit)

Samaritan North Lincoln Hospital

2. RCORP Grant Number (Prepopulated, click next to continue):

GA1RH33539

# **Prevention-Related Work Plan Activities**

3. <u>Degree of Implementation.</u> For each core requirement below (per the RCORP-Implementation Notice of Funding Opportunity), please indicate the <u>degree to which you have implemented</u> the associated activities and sub-activities proposed in your last HRSA-approved work plan.

	Not Yet Started	Just Beginning	Partially Implemented	Fully Implemented
<b>P1. Naloxone Access.</b> Develop, implement, and assess intervention models that leverage opioid overdose reversal and increased naloxone availability as a bridge to treatment and ensure that rural communities have sufficient access to naloxone.				X
<b>P2. Public Education &amp; Stigma Reduction.</b> Provide and assess the impact of culturally and linguistically appropriate education to improve family members', caregivers', and the public's understanding of evidence-based treatments and prevention strategies for SUD/OUD and to eliminate stigma associated with the disease.			X	
P3. Provider Education. Provide training and other professional development opportunities to increase the number of providers, including physicians, behavioral health providers, advanced practice nurses, pharmacists, and other health and social service professionals, who are able to identify and treat SUD/OUD.	X			
<b>P4. PDMP Use.</b> Increase the number of providers who regularly use a Prescription Drug Monitoring Program (including prescribers and pharmacists).			x	
P5. SUD Screening and Referral. Identify and screen individuals who are at risk of SUD/OUD and make available prevention, harm reduction, early intervention services, referral to treatment and other supportive services to minimize the potential for the development of SUD/OUD.				X
P6. Refer SUD Patients with Infectious Diseases to Treatment. Track, screen, prevent, and refer to treatment patients with SUD/OUD who have infectious complications, including HIV, viral hepatitis, and endocarditis, particularly among PWID.				Х

4. <u>Status Relative to Timeline.</u> For each core requirement below, please indicate the your <u>implementation status</u> <u>relative to the timeline</u> proposed in your work plan.

	Delayed	On Track	Ahead of Schedule
P1. Naloxone Access.		X	
P2. Public Education & Stigma Reduction.		X	
P3. Provider Education.	X

# **Treatment-Related Work Plan Activities**

5. <u>Degree of Implementation.</u> For each core requirement below (per the RCORP-Implementation Notice of Funding Opportunity), please indicate the <u>degree to which you have implemented</u> the associated activities and sub-activities proposed in your last HRSA-approved work plan.

	Not Yet Started	Just Beginning	Partially Implemented	Fully Implemented
T1. Increase # of Waivered Providers. Increase the number of providers, including physicians, nurse practitioners, clinical nurse specialists, certified nurse-midwives, certified registered nurse anesthetists, and physician assistants who are trained, certified, and willing to provide MAT, including by providing opportunities for existing rural providers to obtain DATA 2000 Drug Enforcement Agency waivers.		X		
<b>T2. Increase MAT Support Staff.</b> Increase the number of support staff with the training and education to provide activities and services to complement MAT.		X		
<b>T3.</b> Workforce Recruitment and Development. Recruit and retain rural SUD/OUD providers by providing workforce development opportunities and recruitment incentives through mechanisms such as, but not limited to, the NHSC.			X	
T4. Address Treatment Barriers through Integrated Care. Reduce barriers to treatment, including by supporting integrated treatment and recovery, including integration with behavioral health, dentistry, and social services, and, as appropriate, providing support to pregnant women, children, and at-risk populations using approaches to minimize stigma and other barriers to care.			X	
T5. Optimize reimbursement. Train providers, administrative staff, and other relevant stakeholders to optimize reimbursement for treatment encounters through proper coding and billing across insurance types to ensure financial sustainability of services.		Х		
<b>T6. Strengthen collaboration to improve emergency treatment.</b> Strengthen collaboration with law enforcement and first responders to enhance their capability of responding and/or providing emergency treatment to those with SUD/OUD.			Х	

6. <u>Status Relative to Timeline.</u> For each core requirement below, please indicate the your <u>implementation status</u> <u>relative to the timeline</u> proposed in your work plan.

	Delayed	On Track	Ahead of Schedule
T1. Increase # of Waivered Providers.	X		
T2. Increase MAT Support Staff.	X		
T3. Workforce Recruitment and Development.		X	
T4. Address Treatment Barriers through Integrated Care.		X	
T5. Optimize reimbursement.	X		
T6. Strengthen collaboration to improve emergency treatment.		X	

# **Recovery-Related Work Plan Activities**

7. <u>Degree of Implementation.</u> For each core requirement below (per the RCORP-Implementation Notice of Funding Opportunity), please indicate the <u>degree to which you have implemented</u> the associated activities and sub-activities proposed in your last HRSA-approved work plan.

	Not Yet Started	Just Beginning	Partially Implemented	Fully Implemented
R1. Improve access to treatment and recovery support services. Enable individuals, families, and caregivers to find, access, and navigate evidence-based and/or best practices for affordable treatment and recovery support services for SUD/OUD, including home and community-based services and social supports such as transportation, housing, child care, legal aid, employment assistance and case management.			X	
<b>R2. Expand recovery support services.</b> Develop recovery communities, recovery coaches, and recovery community organizations to expand the availability of and access to recovery support services.			Х	
R3. Improve discharge (re-entry) programs and services. Enhance discharge coordination for people leaving inpatient treatment facilities and/or the criminal justice system who require linkages to home and community-based services and social supports. These services and organizations may include case management, housing, employment, food assistance, transportation, medical and behavioral health services, faith-based organizations, and sober/transitional living facilities.		X		

8. <u>Status Relative to Timeline.</u> For each core requirement below, please indicate the your <u>implementation status</u> <u>relative to the timeline</u> proposed in your work plan.

	Delayed	On Track	Ahead of Schedule
R1. Improve access to treatment and recovery support services.		X	
R2. Expand recovery support services.		X	
R3. Improve discharge (re-entry) programs and services.		Х	

# **SUD/Drug Concerns**

9. What, if any, changes in drug use have you noticed during the last quarter?

Significant increase

10. What, if any, changes in the demand for SUD services have you seen in the last quarter?

Significant increase

11. Have you seen changes to the top three drugs of concern in your service area during the last quarter?

No

12. Have you seen changes to the top three drugs you have the least capacity to treat?

No

#### **SUD-Related Health Concerns**

13. Have you seen changes to the top three health concerns in your service area during the last quarter?

No

14. Have you seen changes to the top three health concerns with the least capacity to address?

No

#### **Successes**

15. Please select the top three areas where you feel you've had successes during the past quarter:

Access to Treatment Services

Harm Reduction

Other - Write In: Resource mobilization and delivery

16. Please describe the success(es) you had related to access to treatment services

Reconnections Counseling has assisted five of their MAT clients in accessing Hepatitis C treatment.

17. Please describe the success(es) you had related to harm reduction

The Confederated Tribes of Siletz Indians (CTSI) harm reduction outreach specialist and peer recovery mentor have assisted clients in accessing inpatient services and detox services.

18. Please describe your other, written-in success(es)

Through COVID-19 and the wildfires currently affecting our community, both the Lincoln County Health and Human Services (LCHHS) staff and recovery community organizations have assisted in helping community members find temporary housing and receive resources such as food, clothing, and other supplies.

### **Challenges**

19. Please select the top three areas where you feel you've had challenges during the past quarter:

COVID-19 Pandemic

Workforce — hiring/recruitment

Other - Write In: Wildfires

20. Please describe the challenge(s) you had related to the COVID-19 pandemic

COVID-19 continues to bring on many challenges for our rural community. Services and accessibility to treatment remain limited at this time.

21. Please describe the challenge(s) you had related to workforce—hiring/recruitment

Recruitment and hiring for positions related to this grant continue to challenge our community partners. Although some positions have been filled through our CTSI partners, we are currently seeking to hire two positions through LCHHS.

#### 22. Please describe your other, written-in challenge(s)

The recent wildfires in our area have displaced many people, including staff members from partner organizations. This has created a challenge in the availability of services for community members and has affected communication between community partners.

# **Anticipated Challenges/TA Needs**

# 23. Please select <u>up to three areas</u> where you are anticipating having challenges and/or needing targeted technical assistance in the future:

COVID-19 Pandemic

Overdose Prevention and Naloxone Distribution

Other - Write In: Threat of homelessness

# 24. Please describe the anticipated challenge(s) or technical assistance need(s) related to the COVID-19 pandemic

COVID-19 will affect the ability to have a cold-weather shelter in our community.

# 25. Please describe the anticipated challenge(s) or technical assistance need(s) you have related to overdose prevention/naloxone distribution

Accessing funding streams for Naloxone/Narcan and distribution.

#### 26. Please describe your other, written-in anticipated challenge(s) and/or targeted technical assistance need(s)

There is a high level of concern that when the eviction moratorium is lifted, there will be many people who lose their homes in our county.

# Impact of COVID-19 on RCORP Operations

# 27. Please indicate the extent to which COVID-19 has impacted components of your RCORP project and consortium/partnership.

	Not at all impacted	Slightly	Moderately	Extremely
Ability to implement SUD/OUD prevention services and activities				X
Ability to implement SUD/OUD treatment services and activities				X
Ability to implement SUD/OUD recovery services and activities				X
Ability to hire, recruit, or retain SUD/OUD providers and support staff			Х	
Ability to engage consortium members or partner organizations	X			
Ability to provide high quality data for RCORP reporting requirements		X		
Ability to complete RCORP-Implementation work plan activities within the timeframe proposed in your work plan		X		
"No Show Rates" for in-person patient services ("No Show" in this context refers to scenarios in which patients are scheduled for services but miss their appointments)	X			
"No Show Rates" for telehealth patient services	X			
Behavioral health outcomes (suicidality, overdose, new cases of SUD, etc.)				Х

28. Are there any additional details you'd like to share about how COVID-19 has affected your ability to implement SUD/OUD prevention services?

- 29. Are there any additional details you'd like to share about how COVID-19 has affected your ability to implement SUD/OUD treatment services?
- 30. Are there any additional details you'd like to share on how COVID-19 has affected your ability to implement SUD/OUD recovery services?

Reconnections Counseling will start to schedule appointments via a hybrid model – part in person and part virtual. They have found that virtual appointments are occasionally a better fit for their clients.

- 31. Are there any additional details you'd like share on how COVID-19 has affected your ability to hire, recruit, or retain SUD/OUD counselors and other support staff?
- 32. Are there any additional details you'd like to share about how COVID-19 has affected your ability to provide high quality data for RCORP reporting requirements?
- 33. Are there any additional details you'd like to share about how COVID-19 has affected your ability to complete RCORP-Implementation work plan activities within the timeframe proposed in your work plan?
- 34. Are there any additional details you'd like to share about how COVID-19 has affected behavioral health outcomes?

# **Adaptations to COVID-19**

35. Please indicate the ways (if any) in which you have had to adapt to COVID-19. Select all that apply

Increased social media presence

Increased telemedicine capacity (e.g. prescribing MAT, treatment intake)

Increased capacity for interactive, two-way telehealth services (e.g., counseling, case management, assessments)

Increased capacity for audio-only telehealth services by telephone (e.g., counseling, case management, assessments)

Increased linkages to support services (e.g., food pantries, housing)

Performed contact tracing

Held remote consortium meetings

Adapted provider trainings to a virtual format

Adapted community trainings to a virtual format

Designed and hosted on-line support groups

Re-designed physical space to accommodate social distancing

Developed temporary expansion site(s) for patient care

Coordinated care delivered in patients' homes

#### **COVID-19 Adaptations Continued**

36. If you have a particular adaptation that you'd like to tell us more about, please select the adaptation from the drop box:

# **Project Director Turnover**

37. Did you have a change in project director during the past year?

Yes

38. How many project director changes did you have?

#### \_

Identify and screen individuals at risk of SUD/OUD and connect them to prevention, harm reduction, early intervention services, referral to treatment and other support services.	Individuals at risk of infectious complications - including HIV, viral hepatitis and endocarditis - will be screened, tracked and referred to treatment.	Goal 2: Strengthen and expand SUD/OUD treatment services in Lincoln County.	Prioritize hiring providers who already have DEA waiver, and strongly encourage new hires to obtain DEA waiver.	Conduct outreach to the provider at the Lincoln County Jail to facilitate obtaining a DEA waiver.	Develop MAT program at FQHC through which waivered providers can provide MAT.	Provide DEA waiver trainings biannually in Lincoln County.	Hire Peer Recovery Mentor (PRM) to work with Siletz Tribal members in the clinic and the community.
